# MULTI-CONTAINER LOAD

MULTI-CONTAINER LOAD

## Product Introduction

The appearance of multi-container is similar to the packaging box, which is folded on the basis of the packaging box. Compared with the traditional folding box, it is more beautiful and atmospheric, and has better tightness and longer life.

Multi-container load Size:  
2990mm x 6000mm x 2800mm

## Product Features

1. Integrated folding design, airtight.
2. Built-in drainage system, waterproof.
3. Reinforced base structure ensures flat, vibration-free flooring.
4. Concealed wiring with quick-connect sockets for safe power use.

# ENCLOSURE FENCE

ENCLOSURE FENCE

## Product Introduction

Enclosure fence used to isolate construction sites from external environments, creating enclosed spaces. Materials include masonry walls or prefabricated panels. They enhance aesthetics, cleanliness, and uniformity in urban projects. Standard heights range from 2m to 12m. Surfaces often display project visuals, promotional content, or public service ads.
